

GO-GRASS

GO-GRASS: White Paper for grassland opportunities

NATHALIE BARGUES (Greenovate! Europe)

1 June 2022 – 14.00-16.00 CET

This project has received funding from the European Union's Horizon 2020 research and Innovation programme under grant agreement N°862674.

White Paper on Grassland Opportunities

Objective of the White Paper:

Provide an overview of policy measures, support actions and key recommendations supporting the implementation, adaptation, and replication of the GO-GRASS business models in various regions.

Focus on key obstacles and relevant regulations, to identify policy gaps and propose targeted policy solutions to support grassland valorisation in Europe

White Paper on Grassland Opportunities

Why are business environments relevant?

Grassland valorisation in Europe — status and needs

Status and statistical overview of grassland use

Environmental, technological, social, economic challenges and conditions

Policy frameworks for valorisation of grasslands

European policy for grasslands and the bioeconomy

Policies applied to grasslands bioeconomy in European countries

Regional and rural development policy

Innovation and opportunities

Creating new products from grass and green fodder (animal feed, nutrients, animal bedding, biochar, bioenergy, paper, packaging)

Innovation related to grass-based soil carbon storage/sequestration

New value chains and optimal scenarios: creating a market for grass-based products

Good practices

→ Policy recommendations

White Paper on Grassland Opportunities

GO-GRASS
